Dear Mr. Lavac:

Re: Request for information, Deer Trail Mine, M/031/004, Piute County, Utah

Our files do not contain any information regarding a Deer Trail Development Corporation; they do, however, contain a listing for the Deer Trail Mine. Our files list this as a gold mine which was inactive as of May 1976. According to our files the mine operator was the Marysvale Mining Company. The last site inspection made was on June 12, 1987, and the site was described as well kept, but inactive. This mine is located southwest of the town of Marysvale in Piute County (see map attached). The mine permit for this operation is classified as "retired" and the mine status is listed as "suspended".

Please find attached some information regarding who you could contact to find information about a company or business in the state of Utah. I called the 530-4849 number and was told that the Deertrail Development Corporation was a company in "good standing". I was given the name and address for an agent of the company as: Tom King, 2121 South State Street, Suite 205, Salt Lake City, Utah 84111.

I hope you find this information helpful. Please contact me if you require more information on the Deer Trail Mine.

Sincerely,

Anthony A. Gallegos
Reclamation Engineer

I and another relative inherited some
Deer Trail Development Corporation
Stock from my father who died, 4 years
ago.

We wrote letters to this Deer Trail Corp
and they offered .30 ¢ a share. My
late father paid more than that per share.
So we are interested in the real value of
this stock, and what do they mine at
this place. What kind of ore is or was
being taken out of this Mine at Deer
Trail Development Corporation.

Thus far we have received no information
from Deer Trail except we can get
30 cents on the dollar.

Is it a Gold Mine, Silver Mine, that
slowly folded up? We would surely appreciate
some answers. Thank you

Sincerely

Arthur Savac Jr,
